Tamra

[REDACTED]

that it's not safe here and without saying as many words, knows that they've been avoiding the truth. If you read the section that describes the Government attempt to downplay some of his conditions, suggesting helpful tip to persons such as Brown, like, "live a healthy lifestyle, eat plenty of fruits and vegetables, exercise 30 minutes per day five days per week and at the same time describing how the BOP has "severely limited the movement of inmates and detainees" and "requires that all inmates in every BOP institution be secured in their assigned cells/quarters, in order to stop any spread of the disease. A notable outbreak did occur and in the ACLU suit (quoted here) it states the 58 cases but the government still wants to say only 37. Fort Dix moved men to the Low to reduce the reportable numbers.

[REDACTED] This is true in many cases; the medical reports are padded and illnesses reduced to nothing. Records are incomplete. Medical care is abysmal.

[REDACTED]

Thank you.  
Gary.

[REDACTED]  
[REDACTED]  
[REDACTED]  
Invariably Dix and the gov't gloss over the truth and just say 'all's well' and it's taken as gospel but things are not normal or right.

At last count there are 228 Covid positives in the Low so it's hard for Dix to say they have it under control. That doesn't include the 16 or so staff and the supposed (reported, not confirmed) death or two. Staff that works in the Camp also goes to the Low so cross contamination is highly likely and that would include the COs as well as medical staff. Currently, Fort Dix is the number 1 infected facility.

A question being asked is if we, who have been positive before, are in imminent danger or not as well as all those, like me, who have medical issues making them more vulnerable.

I've given up asking to see a cardiologist and my submissions go nowhere. Even when I walk in as ask just to get my BP checked I get a run around and told to come back at which time I get told the same thing. I require blood work, echo, BP checks etc but they say it's only annual. However, re: a cardiologist, I was told he won't come here and that it has to be a video meeting yet they still won't do it. Bottom line on this; medical care at Fort Dix as run by Dr. Turner-Foster is abysmal and dangerous.

[REDACTED]  
Overall Administration Staff assistance is spotty to miserable. Men can't get pattern scores, are denied release dates although due them and denied earned time credit.

[REDACTED] w. Staff say they have no guidance and won't do anything until 2022 - again in the face of an order. Suffice to say, this is a rogue facility.

Thanks  
Best regards.  
Gary.

**Congress of the United States**  
**Washington, DC 20515**

November 9, 2020

Mr. Michael Carvajal  
Director  
Federal Bureau of Prisons  
320 First Street N.W.  
Washington, DC 20534

Dear Mr. Carvajal,

We write today to express grave concerns regarding the Bureau of Prison's (BOP's) inadequate protocols for COVID-19 testing and transfers of incarcerated individuals. Specifically, we are concerned that BOP recently transferred COVID-19 positive incarcerated individuals to FCI Fort Dix, which is now facing a second, and potentially severe, COVID-19 outbreak. We strongly urge you to extend the recently enacted moratorium on transferring incarcerated individuals to FCI Fort Dix to also cover FCI Fairton, and that you continue the moratorium until BOP eradicates the new COVID-19 outbreak at the facility and formulates an effective and accurate testing strategy to protect both staff and incarcerated individuals from future outbreaks.

Prior to October, BOP had not reported any recent COVID-19 cases among incarcerated individuals or staff at FCI Fort Dix. However, in early October, BOP reportedly alerted staff at FCI Fort Dix that their facility would begin receiving transfers of incarcerated individuals from FCI Elkton in Ohio. FCI Elkton has been severely affected by COVID-19, with nearly 1,000 known cases among incarcerated individuals and staff to date.<sup>1</sup> Despite the known risks of transferring incarcerated individuals during a pandemic,<sup>2</sup> BOP transferred more than 150 incarcerated individuals from FCI Elkton to FCI Fort Dix in recent weeks. On October 28, 2020, BOP confirmed in an email to congressional staff that 54 incarcerated individuals tested positive for COVID-19 in the 5812 unit of FCI Fort Dix, which is reportedly the unit into which the individuals from FCI Elkton were transferred. On October 29, 2020, BOP confirmed that five incarcerated individuals from FCI Elkton who were transferred to FCI Fort Dix on the evening of October 28, 2020 had rapid-tested positive for COVID-19 upon arrival and were placed in isolation.

While the situation is rapidly evolving, it is clear that BOP does not have an effective plan to ensure COVID-19 positive incarcerated individuals are not transferred between facilities. The outbreak is now spreading within FCI Fort Dix, and as of November 9, 2020, there are at least 228 active COVID-19 cases among incarcerated individuals and ten active COVID-19 cases among staff members.<sup>3</sup> The FCI Fort Dix employees responsible for transporting the FCI Fort Elkton transfers may have been exposed to COVID-19 in transit. All incarcerated individuals and

---

<sup>1</sup> <https://www.cnn.com/2020/10/28/us/fci-elkton-covid-19/index.html>

<sup>2</sup> <https://www.fbi.gov/newsroom/speeches/2020/10/28/2020102801>

<sup>3</sup> <https://www.fbi.gov/newsroom/speeches/2020/11/09/2020110901>

staff at FCI Fort Dix and the surrounding communities are now at increased risk for contracting COVID-19, with potentially deadly consequences.

In light of the rapidly escalating crisis at FCI Fort Dix, we urge you to immediately test all FCI Fort Dix incarcerated individuals and staff for COVID-19. We appreciate that BOP has instituted a temporary moratorium on transfers into FCI Fort Dix until November 23, 2020. However, rather than using an arbitrary date, we urge BOP to halt all transfers to FCI Fort Dix until BOP institutes an effective and accurate testing strategy for incarcerated individuals and staff and there are no active cases at the facility. Given that BOP does not currently have an effective strategy for safely transferring incarcerated individuals, we also request that BOP extend this moratorium to New Jersey's other facility, FCI Fairton.

In regards to an effective COVID-19 testing strategy, we strongly urge you to institute a plan to test all FCI Fort Dix incarcerated individuals and staff on at least a biweekly basis. FCI Fort Dix's employees are frontline federal workers, and it is unacceptable that BOP is not providing them with regular COVID-19 testing. By failing to test FCI Fort Dix's employees, BOP is needlessly endangering not only these employees but their families, all incarcerated individuals, and the entire surrounding community.

Additionally, we request that BOP provide detailed answers to the following questions no later than Friday, November 20, 2020:

- 1) Will BOP commit to halting all transfers of incarcerated individuals to FCI Fort Dix and FCI Fairton until the current COVID-19 outbreak at the facility has ended and there are no active cases among incarcerated individuals or staff?
- 2) During the FCI Fort Dix transfer moratorium, will BOP also commit to halting any transfers of incarcerated individuals to FCI Fairton?
- 3) What is BOP's plan for addressing the current COVID-19 outbreak at FCI Fort Dix, including information on testing, safety protocols, notifications to staff and incarcerated individuals, as well as any future outbreaks at FCI Fort Dix and ensuring the safety of both incarcerated individuals and staff?
- 4) In an email to congressional staff, BOP indicated that incarcerated individuals who had tested positive for COVID-19 in the previous 90 days and were asymptomatic were not retested before being transferred from FCI Elkton to FCI Fort Dix. Can you verify that all FCI Elkton incarcerated individuals who previously tested positive for COVID-19 received two negative COVID-19 test results before their transfer to FCI Fort Dix? Please describe, in detail, the process for testing the FCI Elkton incarcerated individuals prior to their transfer to FCI Fort Dix.
- 5) What is BOP's overall, long-term COVID-19 testing strategy for FCI Fort Dix? How will BOP update the COVID-19 testing strategy at FCI Fort Dix in light of the recent outbreak?
- 6) Will BOP begin providing COVID-19 testing to FCI Fort Dix employees? If so, how often will such testing occur?
- 7) How has FCI Fort Dix spent the CARES Act (P.L. 116-136) funding that has been allocated the facility? Please provide a detailed breakdown.

Thank you for your prompt consideration of this urgent matter.

## Tamra Katcher

**From:** BASRALIAN GARY (71610050)  
**Sent Date:** Friday, October 2, 2020 11:08 AM  
**To:** tkatcher@remlawgroup.com  
**Subject:** Friday October 2nd.

Several of the stated things that this facility (Camp) is supposed to provide are:

Medical services  
Religious services  
Psych Services  
Vocational courses  
Work opportunities  
Productivity.  
Education  
Furloughs

Average ages here, approximate, by group:

Caucasians - 59  
Hispanic - 35  
African American - 41

This is based on our own inmate calculations.

Other than some education, and that's only because of the need for GED courses and a teacher who is more interested in education than punishment, none of the other services are complete if exist at all now. This is a warehouse building and the men are but warehoused goods.

Today is Friday October 2nd. We had been told that the sequestering of the two wings, A & B was to end but that has changed. The restrictions will continue as will the outside rect of 3 hours per week. Understand this; we have a warden who has done nothing to speak to inmates or discuss the situation. He has not been to the camp in over 7 months. He has been said to be concerned about his own health; we don't count.

To that end, the Low had an issue with Legionnaires Disease and had to shut a building down for cleaning.

Enjoy the weekend.

**From:** BASRALIAN GARY (71610050)  
**Sent Date:** Sunday, September 20, 2020 8:35 AM  
**To:** tkatcher@remlawgroup.com  
**Subject:** Sunday morning

It is 6:45 Sunday morning. Temperature in the dorm is about 50-55 degrees. The mice use your shoes for their own dorm.

After sleeping in 3 layers of clothes and a wool cap, I sit eating breakfast from a Styrofoam clamshell, at my bunk, dressed the same way but with a blanket draped over me (obviously no heat yet; too soon) We eat at our bunk, as we've been doing for the last 6 months as we are not allowed to use the chow hall. Dining at the bunk is just one other result of a misguided management using COVID-19 as an excuse not to have to clean. Eating food where you sleep and rodents roam is seemingly a better decision.

The stench coming from the lavatory mixes with the rest of the natural odors of 75 men (per dorm); urinals are not working, backed up, and haven't been repaired in weeks. Lavs are great meeting places not the least for which to exercise in 24/7.

The concern for another outbreak of COVID-19 or a new strain must not be great as the intent to bring more men from another location to re-fill the Camp to it's pre-outbreak numbers was confirmed by the Unit manager. A total of 200 will be coming to Fort Dix to be spread out between the Low and Camp (approx 140 and 60 respectively). Elkton, Ohio is the source and that location also had an outbreak and a federal judge had said to reduce their numbers. Fort Dix is the largest camp in the system and destined to be even more so. [REDACTED]

The fear of a new outbreak is real; the words "I'm scared" are not unusual. Disgust at the deliberate indifference is even greater.

There has not been one upgrade of any piece of equipment, appliance or device in Camp Fort Dix that would be used by an inmate. As I write this, I can listen to the melodious sound of a dryer squeaking away as a ball bearing in the tumbler is being shredded out of existence. Even the library copy machine has been out of service for 2 weeks and despite calls for service, is not likely to be repaired. A new one is reportedly sitting in storage (some say waiting to be delivered to a home outside the fence!).

Time to go do some push-ups and warm up!

Happy final day of summer!
